INTRODUCTION

The Honourable Noël Dorion, P.C., Q.C., M.P.,
Secretary of State and Registrar
General of Canada.

SIR,—I have the honour to submit the report of the Department of the Secretary of State of Canada for the financial year ended March 31, 1961.

Respectfully submitted,

C. STEIN,

*Under Secretary of State and
Deputy Registrar General of Canada.*

INTRODUCTION

The Secretary of State and Registrar General of Canada administers legislation relating to companies, patents of invention, trade marks, copyrights, industrial designs, timber marking, governmental and parliamentary translations, boards of trade, the registration of trade unions, public officers and public documents.

The Secretary of State is the channel of communication with the Governor General and, through him, with the Sovereign concerning various matters, such as decorations and other subjects related to the exercise of the royal prerogative, and is responsible for the preparation and tabling of certain returns in Parliament.

The Registrar General is the custodian of the Great Seal of Canada and of a Privy Seal of the Governor General.

The Decorations Committee and the Committee on the use of Parliament Hill and the National War Memorial report to the Secretary of State. State ceremonial, decorations and precedence, including publication of the Guide to Relative Precedence at Ottawa, are amongst a variety of "residual" functions entrusted to the Department of the Secretary of State.

The staff of the department is headed by the Under Secretary of State and Deputy Registrar General of Canada, who is also Deputy Custodian of Enemy Property. Other officers are the Assistant Under Secretary of State and Advisory Counsel and the directors of the divisions enumerated below, three of whom have statutory designations, namely the Commissioner of Patents, the Registrar of Trade Marks, and the Superintendent of the Bureau for Translations.

The functions of the department are carried out by the following divisions: Administration and Registration Division, Companies Division, Patent and Copyright Office, Special Division, Trade Marks Office and Bureau for Translations. The activities of these divisions, in that order, are outlined in this report.

The Secretary of State is Custodian of Enemy Property and as such administers legislation relative to wartime trading with the enemy. The operations of the Office of the Custodian of Enemy Property are dealt with in a separate report tabled in Parliament annually by the Secretary of State.

The Secretary of State, in addition, administers the Department of Public Printing and Stationery and is the spokesman in the Privy Council, Cabinet and Parliament of the Civil Service Commission and the Chief Electoral Officer. However, the present report covers only the operations of the Department of the Secretary of State.

As a consequence of preparations for structural changes in the West Block, the offices of the Department of the Secretary of State formerly situated in that building were transferred in November 1960 to the 8th and 9th floors of the Hunter Building at the corner of Queen and O'Connor Streets, Ottawa.

INTRODUCTION

The Secretary of State and Registrar General of Canada administers legislation relating to companies, patents of invention, trade marks, copyrights, industrial designs, timber marking, governmental and parliamentary transactions, boards of trade, the registration of trade unions, public officers and public documents.

The Secretary of State is the channel of communication with the Governor General and through him, with the Sovereign concerning various matters, such as decorations and other subjects related to the exercise of the royal prerogative, and is responsible for the preparation and tabling of certain returns in Parliament. The Registrar General is the custodian of the Great Seal of Canada and of a Privy Seal of the Governor General.

The Decorations Committee and the Committee for the use of Parliament Hill and the National War Memorial report to the Secretary of State. State economic, donations and prizes, including publication of the Guide to Initiative Proceedings in Ottawa, are amongst a variety of "residual" functions entrusted to the Department of the Secretary of State.

The staff of the Department is headed by the Under Secretary of State and Deputy Registrar General of Canada, who is also Deputy Clerk of the Privy Council and the Registrar of the Senate. The Department is organized into several divisions, each with a statutory designation, such as the Division of the Registrar of Trade Marks and the Division of the Registrar of Companies.

The functions of the Department are divided into three main divisions: Administration and Legal, and the Division of the Registrar of Companies. The activities of these divisions, in that order, are outlined in this report.

The Secretary of State is Custodian of Her Majesty's Property and as such administers legislation relative to wasting trading with the enemy. The operations of the Office of the Custodian of Her Majesty's Property are dealt with in a separate report tabled in Parliament annually by the Secretary of State.

The Secretary of State, in addition, administers the Department of Indian Affairs and Northern Development and is the spokesman in the Privy Council, Cabinet and Parliament of the Civil Service Commission and the Civil Electoral Officer. However, the present report covers only the operations of the Department of the Secretary of State.

As a consequence of preparations for structural changes in the West Block, the offices of the Department of the Secretary of State formerly situated in that building were transferred in November 1980 to the 8th and 9th floors of the Hunter Building at the corner of Queen and O'Connor Streets, Ottawa.

LIBRARY

The following collections are in the library:

The Statutes of Canada of the Provinces and of the United Kingdom, The Canada Gazette, Provincial Gazettes and the London Gazette; Journals and Debates of the Senate and of the House of Commons; LAW REPORTS OF CANADA: Supreme Court, Exchequer Court, Dominion Law Reports, Western Weekly Reports, Canadian Annual Digest, Canadian Abridgment, Canadian Encyclopaedic Digest, Ontario Reports; LAW REPORTS OF THE UNITED KINGDOM: Judicial Committee of the Privy Council Appeal Cases, Chancery Division, Probate Division, Queen's Bench Division, Weekly Law Reports; Encyclopaedias, biographies, year books and directories.

The customary searches were made, for members of this and other departments, in orders in council, records of appointments, proclamations, statutes regulations, historical data, biographies, etc. Approximately 1,936 books were loaned and 1,408 volumes were consulted.

When the Department moved from the West Block to the Hunter Building, some books were transferred to the National Library.

COMPANIES DIVISION

Under the Companies Act

Letters patent were granted incorporating 821 companies under Part I and 57 corporations without share capital under Part II.

Supplementary letters patent were granted to 522 existing companies and to 10 existing corporations without share capital; 11 certificates were issued to existing companies increasing the amount of consideration to be received for the issuance of shares without nominal or par value.

Pursuant to the provisions of Part IV, 6 licences were issued to foreign mining companies to carry on mining operations in the Northwest Territories and in the Yukon Territory.

The total number of documents entered on the Register of Mortgages and Charges pursuant to the provisions of sections 66 and 68 was 146.

The number of annual summaries submitted under section 125 totalled 12,765.

Certificates of acceptance of surrender of charters were issued dissolving 176 companies under section 29 and 74 charters were returned for cancellation. Advice was received to the effect that 52 companies had gone into bankruptcy or were in process of liquidation.

The Companies Division maintains a complete record of the names of all Canadian companies incorporated under or by federal and provincial statutes. There were 5,098 searches undertaken by the Searching Section, of which 4,289 were to determine the availability of suggested corporate names and 809 were inquiries as to the existence or otherwise of companies under specific names.

Under the Boards of Trade Act

There were 20 boards of trade registered, 11 orders in council issued changing the names of boards of trade and 2 orders in council issued changing the boundaries of existing boards of trade.

PATENT AND COPYRIGHT OFFICE

Report of the Commissioner of Patents for the fiscal year ended March 31, 1961.

INTRODUCTION

This report is made pursuant to the requirement of section 27 of the Patent Act, (Chapter 203, R.S.C. 1952 as amended by Chapter 19, and Chapter 40, section 15, 2-3 Eliz. II, 1953-54). The tables included herein contain information concerning the transactions of the Office, patent, copyright, industrial design, and timber mark fees, total receipts and expenditures, trend of invention, residence of inventors for applications filed and residence of inventors for patents granted. Examination and disposal of a patent application by the Office in accordance with the Act and Regulations entail a search for novelty, consideration of inventive subject matter, a decision as to patentability and also verification of compliance with procedural requirements. The statute provides for the grant of a seventeen year exclusive right to the inventor (or his successor in title) in return for his disclosing and making available to the public the product of his inventive genius and labours. It also contains provisions to safeguard the public interest against possible abuses of patent rights.

GENERAL BUSINESS

The general business of the Office again shows an increase compared with that of the previous year.

Applications for patents totalled 24,529, an increase of 237, or about 1 per cent. This is an all time record for the Office. Of the total number of applications filed, 19,110 claimed priority of filing date under the International Convention for the Protection of Industrial Property. This is an increase of 707 or more than 3.8 per cent.

Allowances of applications totalled 22,471, a decrease of 801 or 3.4 per cent under last year. There were 31,724 reports on patentability, a decrease of 1,034 from last year. The allowances and reports, being the total number of applications acted on by the Examiners, amounted to 54,195. During the year 3,272 applications became abandoned through rejection for non-patentability or failure of the applicant to continue prosecution.

There were 22,014 patents issued. This is approximately the same amount as last year.

The number of deeds entered in the register of assignments was 22,587 an increase of 572.

Copies of specifications, drawings and other patent documents to the number of 9,711 were made.

Copyright applications numbered 6,283 and there were 6,381 registrations made. Industrial design applications amounted to 832 and 795 designs were registered; 260 design registrations were renewed.

The following tables show, respectively, the transactions of the Patent Branch and of the Copyright and Industrial Design Branch for the last ten year period.

The fees from all sources amounted to \$1,833,724.67 an increase of \$15,425.15 from the preceding year.

Receipts from the Patent Branch totalled \$1,806,279.15. This is \$12,593.98 more than last year.

The sale of copies of printed patents has brought in a revenue of \$158,953.09. Copyright Branch receipts were \$27,445.52.

The total expenditure was \$2,522,910.44

PATENT GRANTS

There were 22,014 patents granted. Of the total 21,981 were issued for the full term of seventeen years and 26 were reissued under section 50 of the Act for the unexpired term of seventeen years for which the original patents were granted. Under section 28A, 7 patents were issued.

Patents issued to assignees of the whole interest totalled 18,568, jointly to inventors and assignees of part interest 142, to inventors or to legal representatives 3,304.

The number of patents issued to companies was 18,322, to individuals 3,619 and to companies and individuals jointly 73.

Patents where invention was claimed to have been made by two or more inventors totalled 7,147 and by one inventor 14,867.

Of the total, 81 patents were issued to female inventors, to male and female inventors jointly 94, and to male inventors, 21,839.

There were 2,036 patents granted to Canadian citizens or companies and 19,978 to patentees of foreign origin.

There were 55 patents issued subject to the Public Servants Inventions Act.

FORFEITURES, RESTORATIONS AND REINSTATEMENTS

Due to failure to pay the final fee within the period required by section 75, a total of 787 allowed applications became forfeited. Upon payment of restoration and final fees, 221 forfeited applications were restored. Of the applications that had lapsed through failure to complete the formal papers or prosecute within the time provided by section 32, reinstatements were allowed in respect of 133.

REGISTER OF PATENT AGENTS

Under the provisions of section 15 of the Patent Act and the Rules under the Patent Act, the names of 70 agents were added to the Register. By reason of failure to comply with rule 144, the names of 23 patent agents were removed from the Register. A qualifying examination under rule 143 was held at Montreal, Ottawa, Toronto, Halifax and Vancouver on October 17th and 18th, 1960. Twenty-three candidates tried the examination and 13 were successful. At the close of the year the names of 1,222 patent attorneys and patent agents appeared on the Register.

PATENT OFFICE RECORD

Pursuant to section 27 of the Patent Act, which requires the publication of a list of all patents granted, the official journal of the Office, The Canadian Patent Office Record, was published on Tuesday of each week. Publication was made in each issue of the principal drawings and claims of patents granted on the day of publication, notices and other actions under the Patent Act, lists of copyrights registered, assignments of copyrights and abridgments of industrial designs registered during the week. Starting with the issue of January 3, 1961, the publication in the Patent Office Record of lists of copyrights registered, assignments of copyrights and abridgments of industrial designs was discontinued. It was considered that this information had very little practical value and is not required by the Copyright Act or the Industrial Design Act. Its discontinuance should result in a further saving in the cost of printing The Patent Office Record.

The Office continues to exchange the "Record" for the official journals, indexes and reports on patents and designs from patent offices in Australia, Austria, Belgium, Egypt, France, Germany, Great Britain, India, Ireland, Italy, Mexico, the Netherlands, New Zealand, Norway, Pakistan, Union of South Africa, Sweden, Switzerland and the United States of America.

The "Record" was also exchanged for 19 scientific periodicals and trade journals for the use of the Office.

PATENT PRINTING

The Department of Public Printing and Stationery printed 22,879 patents during the year for the Office. This figure includes 269 reprints.

PATENT OFFICE LIBRARY

During the year 1,613 volumes were added to the Library. Copies of current patent issues were received regularly from Australia, Austria, Belgium, France, Great Britain, Italy, Japan, the Netherlands, Pakistan, Sweden, Switzerland

and the United States of America. In addition, patent journals, indexes and reports were received from the countries named in the paragraph entitled Patent Office Record above and from Colombia, Czechoslovakia, and Yugoslavia.

The Patent Office Library now contains copies of patents of the following countries from the dates given to the present date, namely:—Great Britain from the year 1617, the United States of America from 1845, France from 1902, Italy from 1926, Australia from 1926, the Netherlands from 1947, Sweden from 1947, Switzerland from 1949, Austria from 1949, Belgium from 1950, Japan from 1950 and Pakistan from 1959. The library also contains printed copies of Canadian patents from January 1, 1948 and plant patents of the United States of America from No. 1 of August 1, 1931 to No. 2,039 of March 28, 1961.

All the United States patents from 1934 to date are segregated according to the classification in force at the time of issue of the individual patents.

The Patent Office Library contains 31,186 volumes in all.

MICROFILMING

During the year 66,706 patents were microfilmed. This includes patent No. 346,526 (issue date December 4, 1934) to patent No. 413,231 (issue date June 15, 1943). The total number of patents microfilmed is 244,432.

STAFF

During the year 18 Patent Examiners were appointed. Ten Examiners resigned their positions. The number of Examiners' positions filled at the end of the year was 111.

The total number of employees in the Patent and Copyright Office on March 31, 1961 was 313.

NEWFOUNDLAND PATENTS

Five applications for the grant of letters patent under the laws of Newfoundland (pursuant to the provisions of subsections 3 of section 20 of the Terms of Union of Newfoundland with Canada) remained pending at the end of the year, notice of objection to the grant of such letters patent having been filed against each application.

SPECIAL DIVISION

The Division dealt with a number of applications requesting royal patronage in the form of permission to use the names of the Queen and of other members of the Royal Family and the prefix "royal". Arrangements were made for congratulatory messages from the Sovereign for 892 sixtieth wedding anniversaries and 113 one hundredth birthday anniversaries.

Requests for recognition of acts of bravery by the award of bravery decorations by the Queen were investigated and submitted to the Decorations Committee. Of the number of submissions received, the Secretary of State recommended and the Queen approved the award of decorations to four Canadian civilians, listed hereunder with the date of publication in the Canada Gazette:

British Empire Medal for Gallantry (Civil Division):

<i>Name</i>	<i>Address</i>	<i>Gazetted</i>
PICKUP, Constable Brian	Windsor, Ont.	Oct. 22, 1960

Queen's Commendation for Brave Conduct:

<i>Name</i>	<i>Address</i>	<i>Gazetted</i>
JOHNSON, Robert Richard	Bridgewater, N.S.	Jan. 7, 1961
MANTHORNE, Gerald (deceased)	Bridgewater, N.S.	Jan. 7, 1961
PRUDEN, Don B.	Baker Lake, N.W.T.	Jan. 7, 1961

Administrative and clerical assistance in connection with these awards and with related matters was given to the Decorations Committee.

The usual arrangements for the printing and distribution of the Speech from the Throne were made for the closing of the third session and the opening of the fourth session of the 24th Parliament.

The Secretary of State granted permission for 18 ceremonies held on Parliament Hill or at the National War Memorial.

Plans co-ordinated by the Special Division for the annual celebration on Parliament Hill of Dominion Day were approved by the Secretary of State.

Arrangements were made by the Special Division for the State Funeral in Toronto of the late Right Honourable Arthur Meighen, P.C., former Prime Minister of Canada, who died on August 5, 1960. Interment took place at St. Mary's, Ontario.

The customary arrangements were made from time to time on the occasion of applications received by the Secretary of State from lieutenant-governors for leave of absence from their provinces.

The guide to Relative Precedence at Ottawa was revised, printed and distributed.

The usual assistance was given in response to numerous written and verbal enquiries concerning aspects of protocol such as precedence, ceremonial, hospitality, styles of address, the wearing of decorations, use of royal photographs, flags and armorial bearings, the proposing of toasts and other related subjects.

The Division dealt with requests for the authentication of 38 documents by the Governor General.

Statutes of the provinces received by the department were forwarded to the Department of Justice for examination under section 90 of the British North America Act.

The Division maintained a limited newspaper clipping service for the department.

The Special Division compiled and edited the annual report of the Secretary of State.

BUREAU FOR TRANSLATIONS

Parliamentary and Legal Translations

Translation was made by the respective divisions of the official report of the House of Commons Debates, which covered 9,395 pages, the report of the Senate Debates comprising 1,598 pages, the proceedings of the standing and special committees of both Houses, and the estimates.

The Law Division translated 704 public and private bills with explanatory notes and indexes.

In addition to the day-to-day translation of orders, proclamations, regulations implementing various acts, and indexes, the Bureau's Privy Council Division is responsible for translating international conventions and agreements, and many legal documents for the Privy Council. This division undertook the classification of regulations, revised earlier texts of regulations translated in other divisions and translated Treasury Board decisions, special orders, and other departmental documents.

The parliamentary divisions also did translation for other governmental bodies and commissions.

Simultaneous interpretation of the House of Commons debates, inaugurated last year, has continued satisfactorily. The Senate having expressed the desire to have its debates interpreted simultaneously, the Interpretation Service has taken the necessary steps to begin interpreting in the Senate as soon as the required equipment has been installed. At the request of various departments, the services of interpreters were loaned for different conferences, such as the Colombo Plan conferences held in Jogjakarta and Tokyo. More and more, the interpreters are called upon to do interpretation in parliamentary committees. In view of the difficulty experienced in recruiting interpreters, courses in interpretation have been organized in order to train translators who seem to possess special aptitudes for this type of work. The Interpretation Service has been detached from the Debates Division and is now directly under the Administrative Officer of the Bureau for Translations.

Departmental Translation

The volume of work done by the departmental divisions continues to increase to the point where the staff of some of the divisions will have to be increased.

Foreign Languages

The work of the Foreign Languages Division increases. The volume of translation from Russian, in particular, is steadily rising, as has been the case since the beginning of "cultural exchanges" with the U.S.S.R. A new development in this sector has been the very large volume of technical and scientific documents in German received by the Foreign Languages Division during the past few months.

Translation Done on a Firm Price Basis Outside of the Bureau

As in other years, it has been necessary to enlist the services of outside translators. The amount of translation done in that way for the General Translation Division has again been high; this is due particularly to the heavy volume

of parliamentary committee proceedings. On the whole, however, this type of translation had to be decreased for budgetary reasons, thus adding to the burden of our regular translators.

Total Work Done

It will be seen from the table on page 32 that the translation done by the Bureau during the year 1960-61 totals 90,756,192 words. This figure includes translations done outside the Bureau and is to be compared with that of 86,904,175 words done the previous year. Thus, the volume of translation increases each year and all signs point to an even greater rate of increase in the future. The "Words" column under the heading "Miscellaneous" refers to the preparation of reports, statistical documents, comparison and standardization of texts, written consultations, etc.

The "Hours" column represents the time spent in research, proof-reading, the revision of work done outside the division concerned, the compiling of glossaries, and other work related to translation which cannot be calculated in numbers of words.

Co-Operation with other Bodies

Translators were called upon to give assistance to other official bodies as, for example, in the marking of translation examination papers for the Civil Service Commission, or reviewing candidates' records in promotional competitions; in addition, assistance is given to various departmental and inter-departmental committees such as the Board of Geographical Names, Department of Mines and Technical Surveys. The time devoted to such assistance is not reflected in the table on page 32.

Terminology Service

The Terminology Service was greatly expanded during the year and is now in a position to co-operate more closely with the various divisions.

During the past year, this service published several terminological bulletins and several others are in preparation. The service is revising older bulletins and bringing them up to date. A plan is under consideration to make these documents available to the public.

The Terminology Service keeps in touch with many similar bodies in other countries, particularly international organizations, and receives from them some valuable vocabularies and terminological lists in exchange for its own. This Service co-operates and exchanges information with the Comité d'étude des termes techniques français, of Paris, among others.

During the past year, this Service published the following terminological bulletins:

BT-86 Vocabulaire général "H"

87 Désignations des emplois dans les services administratifs de l'État

88 Construction des routes (supplément au BT-40)

89 Circulation routière

90 Météorologie (remplace BT-1)

91 Fiches du Comité d'étude des termes techniques français (9^e série)

92 Lois fédérales de 1960 (supplément aux BT-68 et 78)

93 Termes divers
